Pallet Specifications

Wooden - General use

- 48" x 40" four-way entry GMA pallets.
- "A-Grade" pallet conditions.
- Top deck must have seven (7) boards evenly spaced.
- Bottom deck must have both end boards and a minimum of three centerboards the same size as the top deck boards.
- Must have three stringers not split or broken.
- No protruding nails or other foreign objects.
- Free from contaminates, infestation, soil and other materials that may harm the product or container being stored. We reject **CHIP** pallets.

Wooden – Imports

- Same as above "General Use" but having been either treated by heat or by fumigation. (Canada is the exception).

Wooden – Special Applications

- Empty drum pallets (ex. item ZA099901) must measure 48" x 48" to accommodate drums per pallet safely.

Plastic – Raw Materials & Chemicals

- 48" x 40" four-way entry pallets 6" in height.
- Capable of holding 2,100# both on floor and in rack.
- Made of (recycled) polyethylene or polypropylene.
- Rackable with smooth top and bottom.
- Capable of withstanding 165 degrees (F) without weakening.
- Free from contaminates, infestation, soil and other materials that may harm the product or container being stored.
- Free from cracks and chips.

Plastic – Imports

- 42" x 42" four-way entry pallets 6" in height.
- Capable of holding 2,100# both on floor and in rack.
- Made of (recycled) polyethylene or polypropylene.
- Rackable with smooth top and bottom.
- Free from contaminates, infestation, soil and other materials that may harm the product or container being stored.
- Free from cracks and chips

Pallets - Other configurations not listed above.

- Contact your buyer with details for permission.
